DETAILED ACTION

Allowable Subject Matter

1. Claims 17-30 and 32 are allowed.

2. The following is a statement of reasons for the indication of allowable subject matter: the e-mail forwarding system claimed by the inventor is configured to include an archival database of unsuccessful requests for forwarding undeliverable e-mail messages. When the e-mail system determines that there is no e-mail forwarding address in its look-up table for a disfavored e-mail address, an archival database in the e-mail forwarding system preferably stores parameters of unsuccessful requests for forwarding e-mail messages. One probable reason for this situation is after each subscriber registers a disfavored e-mail address with the system 44, system 44 checks it's aforesaid archival database to determine if there is a match between a newly registered disfavored e-mail address and an archived disfavored e-mail address (See specification pages 10 and 11).
